

Meeting Traditional Thai Massage

Relieve tension in neck, shoulders and back after a long meeting day with true traditional Thai massage. In only 20 minutes our experienced ethnical Thai masseuses will give you an Oriental break, providing you with renewed energy and comfort. Our goal is to create a small Asian oasis which can be implemented in your meeting schedule. The concept is very flexible in regards to the surroundings.

Traditional Thai Massage is performed without body oil and is done with pressure points massage and stretching – precisely as done in Thailand. You are fully dressed and the massage is done sitting upright in a chair. We can offer massages for up to 30 people per hour.

The theory behind Thai massage is similar to the theory of acupuncture where you focus on the body's 72.000 energy lines. The masseuses work from these lines and combines this theory with the western science of anatomy.

Our team will join you at your meeting location. If you wish the massage to take place elsewhere, we also have access to suitable rooms.

In the massage treatment, we will cover the mentioned areas in a professional and muscle realizing way. Should any of your participants wish a different kind of treatment, this will of course also be possible – for example traditional neck or scalp massage.

If you have more time to spare, individual massage appointments can be booked, where the Thai massage could be combined with hot aroma oil that provides a relaxing and destressing feeling throughout the body.
