

## Action on the water

Get an unforgettable experience on the water together with your colleagues!

Vice Versa invites you and your colleagues to a day on the water where you will have plenty of action and fun. Together with our experienced instructors you will conquer the water in fast RIB boats with a maximum speed of up to 154 km / h.

So be prepared to feel the speed and the wind in your hair once the captain starts the engine. You also have the chance to spice up the whole experience by combining your boat trip with a variety of manoeuvring techniques, such as Water Casting and High Speed Racing.

Depending on where you sit in the boat you will have a different action experience. Therefore, there will be a rotation during the trip so that every one can feel the speed and the wind.

The RIB activity can be used for different types of events depending on your wishes. Furthermore, it can take place all over the country. You can use the activity for team building, customer / employee events or as a prize in an internal or an external competition.

An example: after approximately one hour of action and fun on the water the RIB boats will take you to the more than 100 years old Middelgrundsfortet. Here you can take a walk, enjoy a nice dinner before a ferry takes you back to the mainland.

It is possible to sail out with more boats depending on the number of participants.

From 10 persons and up
