

Canyoning

With Canyoning we offer your company a unique possibility to invite your employees or clients on a tour where they will get to know Mother Nature in a different way.

This experience will knock you off your feet, as you - dressed in a neoprene suit, helmet and climbing equipment - rappel rocks through clefts and beautiful waterfalls.

On the way you will pass through impressive clefts and jump into little blue "pools" - an ice-cold experience which requires the support of your team-mates.

During this tour you will be accompanied by your instructors, who will guide and instruct you in the many challenges that you will face. The safety is highly prioritised, and the level of difficulty is adapted to the physics of the group which makes it possible for everyone to participate. We have highly educated instructors and the best equipment on the market.

Before your first canyoning trip you will receive a thorough instruction and lessons in how to move in proportion to the rocks, how to use the safety equipment and how to force eventual obstacles - e.g. clefts and waterfalls.

Testing your skills with canyoning is an adrenaline kick and will be of great satisfaction to you when you have completed this fantastic trip in some of the most beautiful places in the world.

This event is very flexible and could last for half a day or more.
