

Chocolate day

Cocoa beans, milk chocolate, filled chocolate and chocolate sauce. You probably have a lot of associations when you hear the word "chocolate".

Chocolate day takes you one step further, and introduces you to chilli chocolate and chocolate massage!

This event invites you to have a closer look at the universe of chocolate, where you can be a part of the whole chocolate process. So let us inspire and spoil you with a day of chocolate.

To create and make use of chocolate in different contexts is an artwork itself. Basically the possibilities are unlimited! You can for example try a hot chilli/chocolate sauce served with chicken or a beer with a trace of chocolate.

The day starts out with an introduction to the cocoa bean and the whole manufacturing process, which will lead you to an amazing taste experience. You have a chance to develop your own taste – of course with professional assistance.

At the end of the day, you can spice up your taste experience with a chocolate massage.

The chocolate day can be used for both customer and employee events.
