

Fencing & shooting

It's time to test your precision, elasticity and tactical skills when Vice Versa invites you to try out the two classical disciplines - fencing and shooting.

Before the games begin, our professional instructors will introduce the two disciplines and guide you through the basic skills required in practicing the sports.

To make the event more complete and unique, you can combine the day with a visit by some of the best fencers or shooters in Denmark. They can provide you with some good advices and histories from their carrier as professional athletes.

After the instructions you will be divided into two teams. Each team will get 1½ hour for practicing respectively fencing and shooting. It's up to you if you want to switch after the first 1½ hour.

If the muscles get to sore and the concentration has been challenged enough, its time for a nice dinner at a nearby restaurant.

During dinner the winner of the two sports discipline will be properly rewarded with a prize giving and champagne.

Let the games begin!
