

Mountain bike

Vice Versa invites you and your colleagues to an unforgettable day of speed and competition. You have to handle a map while keeping up the speed on your mountain bike. The main challenge is to get from A to B without getting lost on the way!

It will be a day of excitement, speed and exercises. Your sense of direction and your planning skills will be put to the test when you are searching for different checkpoints. Everyone can participate without any real preparation or training since the distance and difficulty level can be varied according to the participants' wishes.

Before you begin, our professional instructors will have a short briefing with you where they go through the route and ensure that the bikes fit the height of every one of you.

All checkpoints will be manned and during the whole day it will be possible to get help if you have bike problems.

This event can be used as a competition - both as individual, couples or as a team. It can also be combined with a photo competition, where you have to take pictures of specific items on the way. Each image will be rated and points will be given which can change the overall score drastically.

After a hard race, we suggest that you have a relaxing dinner. During dinner there will be a prize ceremony and a presentation of the various pictures that were taken during the event.
