

Multi-Activity Day

If you like the water, want to be a bicycle rider, a shepherd, do graffiti or maybe be a rapper, here is your opportunity to try it and show what you have got. We will arrange the perfect multi-activity day for you and your colleagues where everybody has the chance to show what they are made of.

As a graffiti painter you have to do a perfect copy of an existing painting and it is not easy. You will have to take your creativity to the highest level if you wish to succeed.

Do you consider yourself a friend of the animals? Now let's see. We painted letters on 5 sheep, and now it is your mission to catch the sheep and put them in the right order to reveal the secret word. Now take a picture to document it. But bring your trigger finger since they are not going to stand still while you take the picture.

How is your communication? With no other help than 2 signal flags you have to send a message to another person. It is harder than you think!

Our obstacle course can be tricky, and it is not any easier when you have to do it on a bike! So be careful, this is not an easy task!

What is an AquaSkipper? You will find out with a smile on your lips while AquaSkipper "skips" you over and into the water!

These are only a few examples of the activities that we can offer you. We will of course adapt the activities so that it fits your needs.

This is without any doubt going to be a fun and staggering day where team spirit and teamwork are the keys to success. On this day, everybody has the chance to shine!
