

Voiceover for cartoons

Give your employees an unforgettable experience!

Do you need to develop the team spirit in a group or perhaps have a fun employee day? Then it's time to show your hidden talents!

Vice Versa gives you the opportunity to become acquainted with the world of cartoon movies – or in other words the world of sound, as you are about to make voiceover to selected scene from different cartoon movies. Any types of voices are welcomed – from normal to distinctive. Especially the provocative voices are popular and funny in order to create dynamic.

You can choose to use the original text from the cartoon movie and record the sound track with your own voice version – e.g. Little Red Riding hood and the wolf. It is also possible to write your own crazy version and try to make it fit the cartoon movie. It depends of the duration of the event.

If it has to be more serious, where values and visions have to be incorporated into the story, this is also possible. However, this requires that you give us some cue words a couple of weeks before the event, so that our text writers have time to point their pencil and conjure your story.

In order to achieve the best result of your voiceover recording, we offer different workshops with actors, sound technicians and text writers, where sound practice, sound effects and text writing will be in focus.

If you wish so, it is also possible to get your own story animated.
