

Tropical Frederiksberg

Tropical indoor climate and spas are not exactly something that you relate to the everyday life in Denmark. Who has literally experienced the American movie clichés with champagne and strawberry in a spa or cool pool parties? Or what about introducing a new collection, a strategy or product in an untraditional way?

Thanks to an outstanding arrangement with the swimming bath at Frederiksberg, we have the pleasure of offering you the above mentioned and even more. All year round this newly renovated historic swim bath from the thirties is an available "hot spot" for your events, where you're your imagination is the limit for the setup.

From the very first moment, when your guests enter the area, they will be spoiled this the classy swim bath with its luxurious cure department. There are individual cubicles for the change of clothes, and everything your body could desire is available in the bath: Aroma baths in the sauna and steam bath, temple and rainbow showers, spas, jet massages, electric massage chairs and not least "The Death Sea" salt swimming pool.

After the official opening hours of the swim bath, your employees or customers will get a unique experience – you will be your own bath attendants with no interruptions.

There are many possibilities and not all of them have to take place in the water. For instance, invite your guests to a floating dinner in the pool. We will install a platform in the middle of the pool and transport the party guests in a small boat. Due to the mild indoor climate there is room for the party-dresses, and in the light of the candles, the crystal clear water will provide you with beautiful and perfect surroundings for a special party.

The place has plenty of opportunities for happenings of all sorts, and the guests' expectations are easy to fulfill in these surroundings. Imagine a catwalk where all the models walk on the water, or what about a product launch appearing from below the water in an impressive show with light, sound and water?

We look forward to realizing your ideas and creating a unique event that would not be forgotten for a long time.
