

## NY URBAN PARTY

Now you have the chance to invite your colleagues to a special tailored party in a "rough" and urban street environment. It is a party where New York's hip-hop meets Danish cosiness.

We will transform the venue and give it an authentic street look with graffiti and spray paint on the walls in order to create the right atmosphere. Alternatively, we will create the party in a parking garage, where you will be welcomed by e.g. STOMP drummers.

Why not start the day with a small competition where all the guests will be divided into smaller teams and get the opportunity to become familiar with one of the hip-hop world's most famous arts: The graffiti.

The best piece of graffiti art will be announced and the winning team will receive a true hip-hop award (ex; Sunglasses, caps, or "bling-bling" necklaces).

After the competition it is time to find your table and start dining. Graffiti "tags", "burning" oil barrels and other street elements will surround you for the rest of the evening.

If you want some entertaining gimmicks during the evening, Vice Versa offer several different types - e.g. a "rap battle" between department managers or a street dance show. Or what about seeing a show with the GUG Rope Skipping Team, who holds several world records?

Of course a DJ will accompany you during the evening.

We look forward to welcoming you to an unforgettable evening.
